

VERIZON NON SURPLUS EISP
UPDATE

7/7/10

The Local 13000 Executive Board met with the Company today to discuss the status of the non-surplus EISP volunteers as part of the 30 day negotiation process. The Union stressed to the Company the need to be able to notify those employees who would be accepted for an EISP. The Company gave an up to date status report of their intent to release which titles in which organizations by location. However, not all of the data was finalized at this point and certain organizations were still in the process of determining a final decision. In all cases, the Company was not in a position to provide any exact off payroll dates for non-surplus titles. There is the **possibility** of a date in August but in no case will that off payroll date be later than November 21, 2010. Below are the organization and titles and the status we received from the Company thus far on the **Non-Surplus Volunteers**. Organizations and titles marked with an “on-hold” are those where further discussions need to be held. Organizations and titles that are marked with “releasing” are those members who the Company was able to confirm at this time are accepted and will be receiving the offer. No confirmation letters will be sent to non-surplus employees until the conclusion of the 30 day negotiation process. Once further information is confirmed we will make that information available to the membership.
