

VERIZON SURPLUS UPDATE

2/26/10

The Company is in the process of providing Surplus notifications to the Union today and will be doing so throughout the course of the day. The Regions are forwarding these numbers to all Unit Presidents as they are received. These numbers do not have any specified timeline attached regarding EISP offers, since the Company still has to meet with the CWA District Vice Presidents to discuss this matter. Once that meeting has occurred we will relay any information resulting from those negotiations.

Questions should be directed to your respective Regional offices.
