

Verizon EISP Update  
Friday 6/25/10  
6:00 p.m.

The union expected a response from the company regarding release dates for those surplus individuals who applied for the enhanced offer that was due back on 6-16-10. As you can see we have received no further updates regarding the release dates for the surplus applicants. We have pressured the company for this information throughout the day and they have been reluctant to provide confirmed off payroll names and dates up to this point. We understand the frustration some of you may be experiencing as a result of this and we are dealing with similar frustrations. Many supervisors are out there in the workplace providing premature information. All we can suggest at this point is to continue to keep in contact with your representatives and check the website for up to date factual information.

We will continue to press the company throughout the rest of the night and through the weekend to get this information and once we do we will make that information available to your Unit Presidents and representatives across the state.
